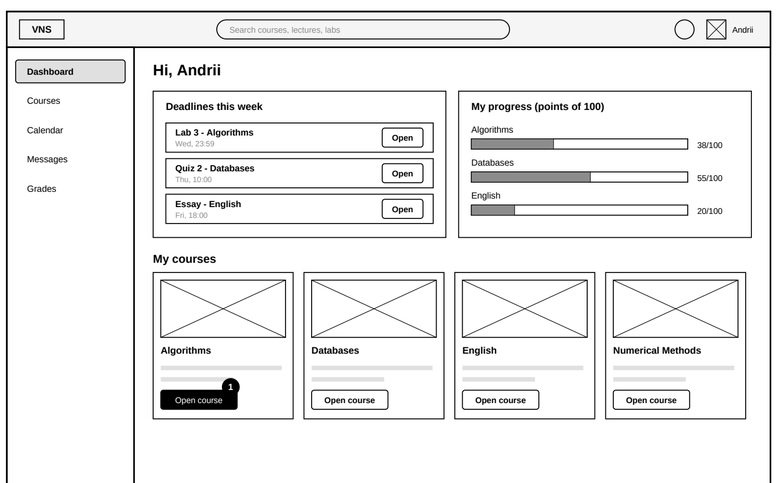
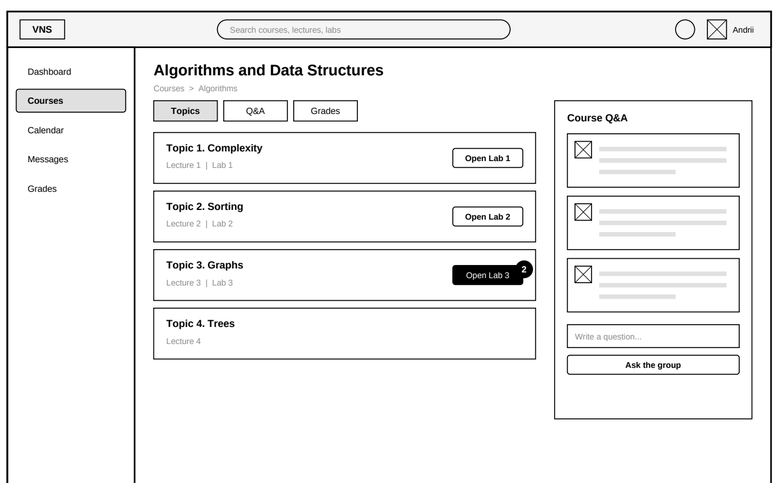
VNS wireframe: student opens a course and submits a lab

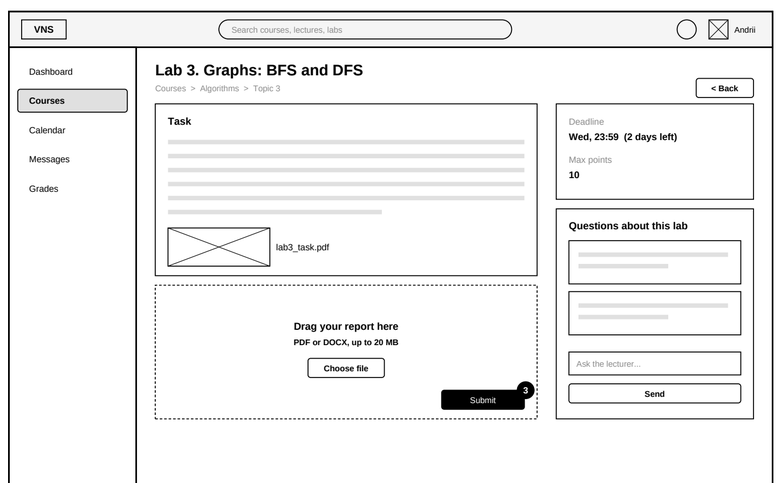
Persona: Andrii Melnyk, CS student. Low-fidelity wireframe, 3 connected screens.



Screen 1. Dashboard



Screen 2. Course page



Screen 3. Lab page

Flow

1. Dashboard: Andrii sees all deadlines of the week, real progress in points and his courses. He clicks "Open course" on Algorithms.
2. Course page: topics with lectures and labs, plus the course Q&A instead of Viber chats. He clicks "Open Lab 3".
3. Lab page: task, deadline and points in one place; he uploads the report, clicks "Submit" and can ask the lecturer about this lab.
