Stakeholder requirements:

- 1) Make website and mobile app more recognizable and user-friendly with orientation to millennials with their urge for everything flexible, modifiable, and multifunctional
- 2) Make some difference so that the brand would be associated with a creed that the "CoZy" brand inherited from the founding father: let your home be the soaring kite that brings you closer to your future
- 3) Offer some innovations that will give "CoZy" enterprise an opportunity to reach new markets

System requirements:

- 1) Functional (5):
 - User should be able to process authorization with social media
 - User should be able to pay for items by credit card
 - Website and app should have possibility to add items to favourites and manage list of favorites in User account
 - User should be able to get, proceed payment and manage bonus points (bonus program)

- 2) Non-functional (3):
 - Payments should be secured with two-stage security check
 - Authorization and authentication should be secured and reliable to avoid data breach
 - Application and web should provide seamless usability to avoid any network problems
 - Info should be cached periodically to secure reliability and sustainability
- 3) Transitional (1, if applicable):
 - Provide users that have already used to old website with training and new features presentation
 - Provide seamless transition from in-door to serverless computing on constant level

Assumptions (2):

- 1) After COVID-19 people have used to working from home and tend to keep working remotely further, therefore it is important to make home-office as comfy as possible
- 2) Improvement of old website will bring customer satisfaction and lead "CoZy" to new revenue levels
- 3) Implementation of new app feature will increase brand awareness nationally and abroad

Constraints (2):

- 1) Home supplies production might be limited by country legislations related to eco-friendly production and The EU Climate Law
- 2) Getting back to normal production level would require normalization of employees salary and working hours

Business Rules (2):

- 1) "CoZy" delivers best home supplies to provide comfortable conditions to seamlessly keep your work-life balance
- 2) "CoZy" manufactures are consistent with all environmental laws
